It IS Our Guiding Principle Add Site to your Favorites Other sites we host Phase Linear History Vintage Technics Database We sponsor two free Yahoo Audio Groups We are meticulous and give genuine best efforts to produce clean, well constructed manuals for you. A side by side comparison of our reproduction manuals with those from many other vendors will usually reveal an overall better appearance, construction, and print quality. Sometimes strikingly so. Our Customer Comments page is a fraction of what we receive from real customers and electronics technicians. The vast majority of our printed reproduction manuals are Very Good to Excellent on our Guaranteed Quality Ratings scale. But every single item is not and we refuse to give a false impression that they are. We want you to see a detailed description and individually assigned quality rating before you purchase. This time consuming extra service is almost never provided by our competitors. Customer complaints are nearly zero, perhaps one per 5001000 sales. We believe that virtually none of our competitors could truthfully make a similar claim. We are a USA based family business operating old school style. That means real people trying to serve you as if we were a walk in store in your local neighborhood. We always combine shipping on multiple item orders and do not rip you off on shipping charges. If interested, check out About Our Manuals and other site sections with the menu links at the top of all pages. If you would like for us to be here in the future, you can help by telling your friends and by
