Dustin 2.0 out of 5 stars The book I received was printed in 1987. This book is outdated and is not what i paid for. I am not happy.Very nice cover a huge range of everyday works in a house. I'm impressed for this price it's a total BUY!! I made some photos of the contents and how it explain things. I haven't tried other handyman manuals but this one has great reviews and I immediately understand whySorry, we failed to record your vote. Please try again Many reviewers have said it covers pretty much everything, but there was no online contents table that I could find. As Ive since bought this book, I attach the contents table as photos and hope this helps others. I gave the book 4 stars with a view to increasing to 5 once Ive done more DIY.Sorry, we failed to record your vote. Please try again I wish I hadnt. The book has a ton of useful and interesting background information on how things work and whats behind them. It is, however, light on how to actually do things.Sorry, we failed to record your vote.<http://www.kigimex.com.vn/uploads/userfiles/canon-russian-manual.xml>

Please try again Sorry, we failed to record your vote. Please try again Would highly recommend and genuinely would gift this to my own son when he's older. Covers the basics and shows you diagrams. People complaining about it not going into detail it's not really a step by step book more of a stripped back and explained well. If you want step by step YouTube will help you after you've learned the basics. I'm sure this book will come in handy now and in years to come.Sorry, we failed to record your vote. Please try again Great layout and order. Easy to find what you are looking for. As a reference book this is great. Its as big as a hardback catalogue. Should be 30, so a steal at 10!Sorry, we failed to record your vote. Please try again My other copy is 24years old and they show the same diagrams!!! Almost a word for word copy apart from mentioning what you need building regs for and you can find that out for free online!!!Sorry, we failed to record your vote. Please try again Some advice for the makers of this book is to create a YouTube channel displaying everything written in this book, step by step, with all concepts explained. Will take a long time but views and ad revenue will be off the scale.Sorry, we failed to record your vote. Please try again Little or no mention of modern electrics, construction methods, paint or IT, plumbing still stuck in the dark ages and so are the tools. Stick to the internetSorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again A nice big thick book detailing a wide variety of DIY Subjects an Projects, in full colour and modern. A must for the DIY Person of the house. A Great book giving outstanding value for money. Buy it it, very recommended indeed.Sorry, we failed to record your vote. Please try again That was a big mistake, and despite being a hefty book it was very disappointing in its content. In contrast, this book is what I wanted all

along <http://csam-villepinte.org/uploads/images/canon-s230-manual.xml>

It is well divided and well laid out, with good graphical representations. Some of the information I was not expecting, but is very much welcome for instance, exact measurements for what someone would need to take off their coat in a hall comfortably, or dry themselves after a shower. Even having only given it a casual read I am better informed on several topics. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again The books layout is very clear and straight forward full of interesting ideas and suggestions. I happened to obtain the older version of the book and felt I needed to update, glad I did. Sorry, we failed to record your vote. Please try again.
